VALUE ADDED & CERTIFICATE COURSES

Computer Application

COURSE OBJECTIVE

The Computer Applications course develops skills necessary to gain entry-level work in many positions that demand computer competencies, including Computer programmer, Applications developer, Programmer analyst, Web programmer, Computer programmer analyst, etc.

The primary objective of the Computer Applications course is to equip students with a comprehensive understanding and practical proficiency in fundamental computer applications. Throughout this course, participants will gain essential skills in utilizing various software tools and applications, fostering their ability to effectively navigate and leverage technology for personal, academic, and professional purposes. By the end of the course, students will be proficient in key areas such as word processing, spreadsheet analysis, presentation design, and database management. The course aims to empower participants to apply their acquired knowledge in real-world scenarios, enhancing their digital literacy and contributing to their success in today's technology-driven environment.

ELIGIBILITY CRITERIA:

The applicant must be enrolled in regular basis in any course and in any college. However, students of this college will be given priority. Students of other colleges will be enrolled if seats remain vacant after allotting seats to the opting students of this college. For further information please contact college office.

COMPUTER APPLICATION (Atuglevel)

Paper I: Computer Fundamentals:

What is a Computer – an introduction, uses of Computers in modern Society e.g. Weather forecasting, census, oil exploration, speech recognition, banking, publishing, accounting, research etc.

Information concepts and processing-evolution of information processing – data, information, language and communication.

Computer arithmetic and number system: ASCII & EBCDIC character sets.

Elements of a Computer processing system – hardware, software, firmware – Computer capabilities and limitations. Concept of files and directories.

Hardware features and use- CPU, I/O devices, Storage devices and media. Block diagram of computer and functions of each block.

Introduction to networking, multiprocessing, time sharing, multitasking and real time computing. Concepts of LAN and Internet and WWW.

Variety of hardware system and features, Various types of Computers available in market. Micro, Mini and Main frames, supercomputers.

Concepts of data, information, Difference between data & information, information processing cycle, storage and retrieval of data.

Paper II: Operating Systems concepts and office tools WORD processing & slide presentation.

Part A (50)

Introduction to various categories of software's. Operating system and its functions. Interaction of operating system with hardware and user programs.

O.S. as resource manager, process management, job scheduling, simple user, multi user, multi programming and time sharing concepts. Concepts of priorities, protection device management, spooling, deadlocks, memory management, file structures, command interpreter.

Case study of windows O.S : An overview of windows interface, Managing files by windows explorer and My Computer. Accessories, Control panel, working with disk and drives, Backup data, Installing and managing applications.

Part B (25)

MS-Word: An overview, creating & editing documents, formatting documents, tables, use of drawing tools, columns etc.

MS- PowerPoint: PowerPoint Basics, creating different types of presentations, special effects, slide show.

Paper III: Business Data Processing:

Introduction to data processing, records & file data collection, preparation, verification, editing and checking.

Overview of business functions: Use of Computer system for business applications.

Spread sheets Macros, Use of Computer System for business applications.

Business files Introduction to data structures Elements fields and Records. Classification of files, Master files Transaction files.

Distributed processing, Various facilities for business computing Introduction to databases.

Financial Accounting.

Paper IV: Practical :

Windows O.S. as per paper II. Use of MS-word, MS-Excel & Ms-Access, MS-Power Point.

Visit to Computer lab. Introduction to various Components of a Computer. A simple documentation preparation and printing. Usage of printer and other components. Routing.

Analysis of a business system on paper.

Using spread sheet for payroll, balance sheets and other business applications. Design of packages using spreadsheet macros. Use of a Financial Accounting package.

Travel & Tourism Management

IT Enabled English Language Certificate Course

DIGITAL LANGUAGE LABORATORY Department of English

The Department of English runs IT Enabled English Language Certificate Course [ILCC] by using Orell Digital Language Lab interactive software in its Digital Language laboratory. The basic purpose of the language lab is to equip students with good communication skills and to practice soft skills. Two specially trained teachers from the Department of English, Prof. Sanchita Das and Prof. Ishwar Darnel act as instructors for this specially designed language course.

OBJECTIVES:

- Understanding and use of the basic phrases and expressions of everyday conversations.
- Understanding the use of the sounds of the English Language through Audio-Visual aids and computer software.
- Overcoming self-consciousness while speaking in the English language. Fluency is preferred over accuracy.
- Interacting with each other in a slow and clear use of language.
- Understanding the various standards and environment of English language usage.
- Knowing pronunciations and sentence formations.

DURATION: 6 Months

SEATS : 90 in a batch

WHO CAN APPLY: The Course is compulsory for the first year English Core students. Students of other disciplines can also enroll for the certificate course. For this, they have to give an option at the time of admission and pay the necessary fee.

COURSE FEE: Rs 250 [Rupees Two Hundred & Fifty only]

BROCHURE

SYLLABUS

Department of English SURYA SEN MAHAVIDYALAYA DIGITAL LANGUAGE LABORATORY

IT Enabled English Language Certificate Course

OBJECTIVE

- Understanding and use of the basic phrases and expressions of everyday conversations.
- Understanding the use of the sounds of English Language through Audio-Visual aids and computer software-Orell Digital Language Lab.
- Overcoming self-consciousness while speaking in English language. Fluency is preferred over accuracy.
- Introducing oneself by providing simple personal details.
- Interacting with each other in a slow and clear use of language.
- Understanding sentences and expressions frequently used in areas related to everyday conversations.
- Understanding the various standards and environment of English language usage.
- Knowing pronunciations and sentence formations.

THE SYLLABUS OF THE LANGUAGE LAB HAS TWO PARTS:

1. The science of Language – explanations and backgrounds of the four major approaches to Language namely, Listening, Reading, Writing and Speaking.
2. Practical production and understanding of the sounds of English Language through the use of a IT Enabled Computer software- Orell Digital Language Lab.

DR. P.K. MISHRA
Principal
Surya Sen Mahavidyalaya
Siliguri - 734004

DETAILED SYLLABUS:

I. The science of Language:

- Introduction to the sounds of English- Vowels, Consonants, Diphthongs, Stress, Intonation, Definition and explanation of the science of Language, structures of language Phonetics, Morphology, Syntax, Semantics.
- Introduction and explanation of the Grammar of English Language.

II. Practical production and understanding of the sounds of English Language

First Month-

Sounds of English	Meanings and sentences	Expressions	Comprehension Practice
Picturesque words	Mastering Pronunciations	Short fiction	Poetry mastery

Second Month:

Lecture Series	Movie Speech Yard	E mail artery	Report Maker
Documentary Storm	News Hunt	Letter Writing Guide	Debate Framework

Third Month:

Group Discussions	Presentation Delivery	Aptitude	Discussions
Interview Facts	Art of Public Speaking	Business Communication skills	Communication skills

Fourth Month:

Idioms	Essential English Grammar	Situational Dialogues	Pronunciations
Monologues	Monologue essentials	Essay Builder	Breaking News

Fifth Month

Telephonic Etiquettes	BBC learnings	C.V Builder
VTU grammar	Communicative English	Dialogues

Sixth Month

Language as a science - explanations, backgrounds and theories behind the science of oral communication and Language learning.

Language Skills Practiced in the English Language Lab:**Listening**

The typed text of the students on demand provides the pronunciation; which the students can listen and repeat afterwards.

In the language lab classes while having group discussions (using the headset) the students can listen to each others use of language clearly.

The audio broadcast facility of the language lab enables the students to listen to the instructions and lessons of the teacher more clearly.

Reading

Reading the pre typed lessons in the software or reading the lessons provided by the teacher enables the students to understand and use the language even better.

Also reading the words out loud and hearing it themselves (in the headset) makes them aware of their own pronunciation.

Speaking

Repeating the lessons and speaking it out as words sentences and passages is a practice of self evaluation for the students

Public speaking, Debating and extemporaneous speeches make the students better equipped with their language skills.

Writing

Writing Assignments provide an opportunity for the students to explore and use the three learnt skills of Listening, Reading and Speaking.

The constant engagement of the students with the writing parts of the language will better their use of grammar.

Grammar and its variety of its uses will help the student grow better in language.

VALUE ADDED COURSE ON FOOD CHEMISTRY

CONDUCTED BY

DEPARTMENT OF CHEMISTRY, SURYA SEN MAHAVIDYALAYA

SYLLABUS

(Each Lecture is of 1.5 hrs duration)

Constituents of Food:

4 Lectures

A brief idea of all constituents

Carbohydrate: General Chemical formula with examples, Classification, Types of carbohydrate in food, Food sources, Function of Carbohydrates in human body; Ill effect of inadequacy & excess

Proteins: General formula with examples (idea of amino acids), Food sources, Importance, Effect of deficiency

Fat: Definition with examples, Differences of fats and oils, Edible & non edible fat, Food sources, Importance/ functions, Hazards associated with deficiency as well as accumulation

Vitamins: Definition, Classification with examples, scientific names and common names of each, Food sources of each type, Functions of each type, Hazard of deficiency of each type

Fiber / Roughage: Components, examples, Importance, Hazard of deficiency

Water: Chemical formula, structure, physical characteristics, Importance, Food sources with various forms, Water activity of food

Organic and Natural Food - Quality Factors:

4 lectures

Organic foods: Definition, Discussion of nutritional quality of organic food, Advantage and disadvantage of organic food.

Organic food is more healthy - Brief discussion using examples of milk, egg, meat, vegetable etc.

Discussion on recent research work regarding organic food production

Presence of pesticides residues present in organic and conventional foods under different production system and the detrimental effects.

Food Additives:

4 Lectures

Introduction, Objectives, Definition of additive, Difference with contaminants.

DEPARTMENT OF HISTORY SURYA SEN MAHAVIDYALAYA BLOCK – B, SURYA SEN COLONY SILIGURI, DIST. JALPAIGURI

VALUE ADDED COURSE IN MUSEOLOGY

The Department of History, Surya Sen Mahavidyalaya, Siliguri has taken initiative to introduce Value Added Course in Museology for the students of History Honours and Pass from all Semesters. The sole purpose of which is to broaden the horizon of knowledge and scope of our students that would be helpful for their careers in future. The course intends to develop in them consciousness about the cultural heritage and property of the region and a sense of care and conservation. The course will be in phases the first phase being the Basics of Museology that would be followed up by Advance Course in Museology. The minimum hours of such course would be 30 hours which would be conducted on Virtual mode by the faculty of the department along with invite Professors of different Colleges and Universities and by experts from the fields of Anthropology, Numismatics, Mason and Archaeology.

The Course begins from 30th January to 4th April 2021.
Interested students from History Honours and Program Course may enroll their name within 25th of January.

REPORT OF ADD ON COURSE

TOPIC: WATER CONSERVATION

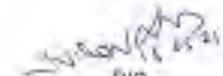

DATE: 10.05.2021 TO 15.05.2021

OBJECTIVES: TO AWARE THE STUDENTS ABOUT WATER CONSERVATION

Objective: Water conservation is a critical aspect of sustainable development, given the increasing global demand for water resources. Recognizing the importance of fostering a culture of water conservation, an add-on course on water conservation was introduced to address this pressing issue. This report provides an overview of the course content, its impact, and the key outcomes achieved. The primary objectives of the water conservation add-on course is to educate participants about the importance of water conservation and the current challenges faced in managing water resources.

Events summary:- Dept. of ENVS was organized a 30 hours Value Added Course from 10.05.2021 to 15.05.2021 with the 1st Semester students. In this covid period the classes was taken by online mode. The special invited lecture was delivered by Anushree Baul, Asst. professor, Department of ENVS, Siliguri College. Next day the lecture was delivered by Mr. Animesh Bose, Program Coordinator, Himalayan Nature and Adventure Foundation. Next 3 days the classed was taken by the faculties of the department. Over all 213 students enrolled their name but 149 students completed the course. The event was interactive and successful one.

Report on Add-on Course on 'Bangla Banan Bidhi'

Date:14.06.2022

Objectives: To learn spelling rules of Bengali Language for the students.

COURSE DURATION: 9th to 14 June, 2022, 30 Hours

The Department of Bengali, Surya Sen Mahavidyalaya, has taken initiative to introduce Add-on Course on "Bangla Banan Bidhi" from 9th to 14th June, 2022. This course is for Honors students of all semesters of Department of Bengali. Spelling is most important in literature. Spelling mistakes change the meaning of words or distort the meaning of a sentence. Therefore, thinking about the need of students to learn Bengali spelling rules has been selected in the add-on course. Lessons in add-on courses will expand the scope of knowledge as well as help in building a sophisticated personality. Spelling practices will help them in their future professional life. The Course will be conducted offline mode by the faculty of the Department of Bengali.

Number of participants: 108

OBJECTIVES OF COURSE:

Statistics is a branch of Science that deals with the collection, organisation, analysis of data and drawing of inferences from the samples to the whole population. An adequate knowledge of Statistics is necessary for proper designing of any study. The statistical analysis gives meaning to the meaningless numbers and in our every day life we use these tools knowingly or unknowingly. In higher study of most of the disciplines statistical methods are incorporated. That's why we introduce the Add on course on " Basic Statistics and Data Analysis ".

ELIGIBLE PARTICIPANTS:

Our targeted participants are the bonafide and interested students of any discipline of Surya Sen Mahavidyalaya.

OFFLINE REGISTRATION OF PARTICIPANTS WILL BE DONE ON 4TH JANUARY, 2023 FROM 10 AM ONWARDS IN ROOM NO K22

COURSE OBJECTIVE, COURSE OUTCOME, CONTENT

RESOURCE PERSONS

Course Objective:

Parliament plays an important role in ensuring good governance and participatory democracy. It is actively engaged in the development and implementation of laws, policies, and practices. It also acts as a representative so that citizens and other stakeholders have a voice at the national level. Parliamentary process is what occurs in parliamentary bodies. It is a collection of rules, regulations, customs and ethics that govern meetings and operations of various organizations. Good parliamentary process aids in implementing sound principles of democracy. It helps in organising communication while providing a platform for a healthy discussion in which each representative is given a fair chance of expressing one's position. The end objective of implementing the parliamentary process is to reach the most appropriate decision in an orderly and fair manner. Thus, through this course an attempt has been made to acquaint the student broadly with the legislative body at various levels, introduce them to the requirements of proper representation, and provide elementary skills in the form of a legislative support team and involve them in real life legislative work. It will also deepen their understanding and appreciation of the political process and indicate the possibilities of making it work for democracy.

Course Outcome:

Parliament of India plays a significant role to secure democratic aspiration of her people. Hence, it is quite obvious that through this course students will be able to learn the degree of importance of parliament in public sector administration and reform policies. They will also be able to gain knowledge of how to actively engage themselves in the development and implementation of laws, policies and practices. Students can also learn the parliament proceedings i.e. how the rules, regulations, customs and ethics that govern the meetings and operations of various organizations. The knowledge gained through this course will enable the students to play a pivotal role in ensuring fair and orderly decision making. Further, it will help them to understand the powers and authority of the Parliament to supervise the functions and administration of the country and to align the policies and procedures as per parliamentary guidelines.
